RAILWAYS.

The names of parties awarded contracts are printed in capital letters.

ALABAMA.—Surveys are reported as under way for a line of railway from Jacksonville to Anniston, this state. The Seaboard Air Line is reported as behind the movement. J. A. Montgomery, Birmingham, Ala., is stated to be in charge of the surveys.

ATLANTIC & BIRMINGHAM.—We are advised that contract for concrete work between Montezuma and Chattahoochee River has been let to JOHN KRIES & CO., Knoxville, Tenn., the firm being composed of John Kries and John G. Chaffin.

ASHLAND, ODANAH & MARENGO.—Company has been incorporated in Wisconsin to build a railroad from Odanah, Wis., in southeasterly line for 10 miles, west to Bad River, at Sedgwick, on the Duluth, South Shore & Atlantic Ry. Capital, $100,000. The incorporators are J. S. Stearns, Ludington, Mich.; L. K. Baker, Ashland, Wis.; John P. Gary, Chicago; George F. Merrill, Ashland; E. B. Hill and F. J. Darke, of Odanah.

ATCHISON, TOPEKA & SANTA FE.—This road, according to reports, is to spend over $600,000 before the end of 1906 in Arizona and New Mexico between Albuquerque and Ash Fork. Of this sum $15,000 is to be spent in improving the Albuquerque car shops, $250,000 in rebuilding and remodeling shops in Albuquerque during next year, $300,000 in bridges and ballasting track between Albuquerque and Williams, which work is now about half completed. Also $75,000 for a new hotel at Ash Fork, work on which is to begin within 60 days. R. J. Arey, Williams, Ariz., is Res. Engr.

BROXTON, HAZLEHURST & SAVANNAH.—This company has applied for a charter in Georgia. It will be 128 miles long and will extend from Osierfield, Ga., through Coffee, Appling, Tatnall, Liberty, Bryan and Chatham Counties, to Savannah, Ga. The incorporators include J. A. J. Henderson, who is president of the Ocilla & Valdosta Ry.; Reason Henderson, William Henderson, W. N. Smith, J. A. Pruitt, L. R. Tucker, John H. Powell, M. J. Paulk, J. D. Paulk and R. V. Paulk, all of Ocilla, Ga.

CHICAGO, BURLINGTON & QUINCY.—Double-tracking of the line between Beverly and Waldron, Mo., is said to be under consideration.

CENTRAL OF GEORGIA.—Bids are reported to have been received for building 24-mile extension of this road from Greenville to Newnan Junction, Ga. It is also stated that bids are being taken for widening the narrow gage line between Columbus, Ga., and Greenville, belonging to this road. H. M. Steele, Ch. Engr., Savannah, Ga.

CALIFORNIA.—A Paso Robles, Cal., report states that Mr. Horswell, of Oakland, Cal., Pres. of the Stone Canyon Coal Co., has been at that place completing work of securing right of way for the railroad to be built to the mines. The road is to be built by the coal company and the Southern Pacific Co. will operate the rolling stock.

CANYON CITY, PLAINVIEW & SOUTHEASTERN.—Right of way has been secured and preliminary surveys made as far as Lubbock for this road. It is also stated that final surveys were to be made by Sept. 15. The road is to be built at first only from Canyon City to Plainview, but the intention is, later, to pass through Lubbock, Gayle, Big Springs, Garden City, Sherwood, Eldorado, Sonora, Rock Springs, Bracketsville to Eagle Pass. The executive offices of the company are in the Railroad Exchange Bldg., Chicago, and Arcade Bldg., Nashville, Tenn., and among those interested are C. L. Tallmadge, Chicago; E. C. Gordon, Decatur, Ala., and Daniel C. Benton, Nashville, Tenn.

GALVESTON, HARRISBURG & SAN ANTONIO.—The attorney-general of Texas has approved amendment to charter of this road providing for the construction and operation of an extension of the Stockdale branch from that place to Cuero, a distance of about 40 miles. A. V. Kellogg is Engr. M. W., Houston, Tex.

HOUSTON, BEAUMONT & RED RIVER.—Advices from Jasper, Tex., of Aug. 28 stated that Edward Kennedy, Gen. Mgr. of the Houston, Beaumont & Red River Construction Co., was then at this place with his corps of engineers locating the line of the new railroad from Houston to Alexandria, La. This road will pass through Humble, Saratoga, Batson, Spurger, Jasper, Leesville, and on to Alexandria.

OREGON EASTERN.—This company has been incorporated at Portland, Ore., with a capitalization of $1,000,000, for the purpose of building a road from Natron, Ore., the present terminus of the Southern Pacific's Springfield Branch, to Ontario, Ore., a town on the eastern boundary of the State, half way between Huntington, Ore., and Boise, Idaho. The incorporators are railroad men connected with the Harriman lines.

PENNSYLVANIA.—Pittsburg reports state that the contract for a six mile double track road to form the connecting link between the Union R. R. of the Carnegie Steel Co. and the West Side Belt R. R., one of George J. Gould's lines, has been awarded to A. H. JACOBY & CO., of Hickory, Pa. The road will cost about $300,000.

PENNSYLVANIA R. R.—This road is stated to have awarded a contract for the construction of 10,000 new cars. Of this amount the PRESSED STEEL CAR CO. received orders for 8,300 cars. The balance was distributed among the other equipment companies including the AMERICAN CAR & FOUNDRY CO. and the STANDARD CO. This contract will take 160,000 tons of steel plates.

PITTSBURG & CROSS CREEK.—Company, with $70,000 capital, has been chartered in Pennsylvania, to build a 7-mile line in Washington County, Pa., connecting the Wabash and the Pittsburg, Cincinnati, Chicago & St. Louis Rys. The line will be run independently of either railroad. N. T. Sandford, of Pittsburg, is Pres., and the directors are J. W. Patterson, F. P. Patterson and D. Huston, also of Pittsburg; W. Craig Lee, of Burgettstown; B. U. Young and S. A. Wortman, of New Castle.

INDUSTRIAL NOTES.

THE MUNICIPAL ENGINEERING & CONTRACTING CO., Railway Exchange, Chicago, announces that it has made a change in its methods of leasing its Chicago trench excavating machine to contractors. Up to the present time they have been leased only for one contract at a time, but as many contractors have desired to have control of the machine in certain territory it has been decided to lease the excavators for a term of years with the privilege of their exclusive use within the territory covered by the lease.

U. S. POSSESSIONS AND CUBA.

The names of parties awarded contracts are printed in capital letters.

SUGAR FACTORY.—Cuba.—A large central sugar factory is projected for the American town of La Gloria, in Puerto Principe Province, Cuba, the Mayor of that place having arranged with several United States capitalists to purchase a tract of sugar cane land, comprising 26,000 acres, at Victoria de Cunas.

RAILWAYS.—Philippines.—The date for opening bids for franchises for the construction of certain railway lines in the Philippines has been postponed from Nov. 1 to Dec. 1. This was done in order to give prospective bidders more time for investigation; that a railroad expert might be engaged by the Government of the Philippine Islands and familiarize himself with the conditions; and that the greatest publicity might be given the work. It is not likely that any other change will be made in the prospectus, and as the matter now stands, bids will be opened Dec. 1 at the hours and places originally stated.

FOREIGN CONTRACTS.

The names of parties awarded contracts are printed in capital letters.

ARTESIAN WELLS.—Turkey.—The Turkish Government has announced its intention of sinking a number of artesian wells in the vilayets of Konia and Angora, where vast stretches of good land are at present uncultivated owing to lack of water.

TELEGRAPH LINE. — Italy.—A law has been published sanctioning the expenditure by the Italian Ministry of Posts and Telegraphs of $70,000 on the installation of telegraph and telephone wires in the Simplon Tunnel, to connect the Brigue telegraph office with the station at Iselle.

ELECTRIC TRAMWAYS.—Argentina.—A company formed by the Sociedad Mutual de Tranvia de Bruselas and the Union Anversoise de Tranvia de Amberes, has acquired the concession recently obtained by Sawyer & Lacaze, of Buenos Aires, for a system of electric tramways in that city.

BUILDING.—Netherlands.—The programme for the international architectural competition for the Palace of Peace in the Hague was issued Aug. 11. About $650,000 has been appropriated for the building, designs for which are to be received before March 1, 1906. Further information can be obtained from D. E. C. Knuttel, Arch., Fluweelen Burgwal, The Hague.

POWER PLANT.—Italy.—The Societa Lombardia per Distribuzione di Energia Elettrica, of Milan, has voted an issue of new stock amounting to $1,544,000, which will for the most part be devoted to building a new power plant at Brusio for the manufacture of electrical current over long distances, and for the enlargement of the central power station at Castel'anza. The new station at Brusio will demand new work in building and equipment amounting to more than half the total appropriation.

RAILWAYS.—Spain.—The capital of the Compania de los Ferro-carriles Suburbours de Malaga, which proposes the construction of two narrow-gage railways, has been subscribed. One of these lines will run from Malaga to Torre del Mar and Velez-Malaga (population 23,000), a distance of some 21 miles along the coast to the east. The other line, of 20½ miles, for which a concession was granted last March, will connect with Malaga the important fruit districts, of which Alhaurin el Grande and Coin are the centers.

CONDENSERS, BOILERS, TRANSPORTS, ETC.—Argentina.—The Argentine Congress has sanctioned the expenditure of $2,000,000 gold on various purchases for the navy of that country. Among the purchases will be one transport vessel of 2,000 tons, two of 600 tons each, and four of 160 tons each, and a steamer for placing automatic mines. A variety of naval stores, such as condensers, boilers, tubes, ammunition, gyroscopes, telescopes, compasses, sextants, materials for electric and radio-telegraphy, dynamos, etc., are also to be purchased out of this credit.

RAILROAD.—Italy.—The Societa per la Tramvia Lucca-Pescia-Monsummano has been organized at Lucca and Leghorn for the construction and operation of steam or electric lines, which will connect the towns named in the title of the corporation, and others. The company also declares its intention to establish public automobile service for towns tributary to and not directly connecting on its main lines. The capital is about $2,400,000, and the promoting companies include half a dozen of the banks, together with many private capitalists in the vicinity of Leghorn.

RAILWAY PLANT.—Bolivia.—The Bolivian Government has extended the time until Dec. 30 for receiving tenders for the supply of the plant and rolling stock of a railway to be constructed between Urguni and Potosi. By the terms of the decree the gage of the railway is to be of 1 meter or 75 centimeters, corresponding to that of the line under construction from La Quiaca to Tupiza in the first case, and to that of the railway from Antofogasta to Oruro in the second. The rolling stock is to be of the best quality, and will consist of seven locomotives, five first-class carriages, five second-class carriages, four luggage vans, 20 good wagons, 30 trucks and 10 flat cars.

RAILWAY.—Brazil.—The concession for a new railroad in the State of Santa Catharina, has been taken up by German capital. The first section of the road will connect Blumenau and Harmonnie, 75 kilometers distant, and will then continue up the west bank of the Itagahy River, about 200 kilometers. Later on it is proposed to extend it farther north, opening up a very rich agricultural and timber country and eventually connecting with the main line of railway in the State of Sao Paulo. For the first portion of this work an appropriation has been made, by the German syndicate, of about $6,000,000. Doctor Wiegan, a Managing Director of the North German Lloyd Steamship Co., is reported to be president of the new railway.

RAILWAY.—South America.—S. H. Nigh, Pres., Equitable Land & Lumber Co., Catlettsburg, Ky., writes us that a certain party has a contract with one of the South American states which calls for building a railroad. "The contract carries with it, among other things, a concession of over 500,000 acres of valuable mahogany and cedar lands that abound in minerals of great value; also freedom from taxation for a long term of years; also the right to purchase every other section of land at a low price and the right to purchase the mahogany and cedar trees (on land not ceded) at a low price." Mr. Nigh would like to get in touch with parties who would undertake the building of the railroad, accepting lands in part payment.

RAILWAY.—Belgium.—For sometime the Belgian and German governments have been discussing the construction of a new railway to connect Ostend with Aix-la-Chappele, and now the former government has asked its Parliament for a credit of about $14,600,000 for the work. By means of electrical appliances especially, this new railway would effect a considerable shortening of the time of the journey from Germany to Brussels, Ostend and Antwerp, and with this end in view the road will be laid out so as to allow the highest maximum speed consistent with safety. Considerable heavy work will have to be done, notably in the Aix-la-Chappele forest, which will have to be cut by a tunnel, about 2.62 miles long, while the Meuse and the neighboring low ground will require a bridge nearly 1¼ miles long. About 260 bridges and 260 viaducts will be necessary to avoid grade crossings.

MEXICO.

The names of parties awarded contracts are printed in capital letters.

STREET RAILWAY.—City of Mexico.—A concession has been granted the Mexico Electric Tramways, Ltd., for the construction of new lines in the Santa Maria quarter of the city.

ELECTRIC RAILWAY.—Baca, Chih.—The Cigarrere Mining Co. is preparing to build a four mile electric railway from its mines to Baca station where connection will be made with the Mexican Central R. R. L. Iwansky, of Parral, Mexico, is said to be interested.

WATER-WORKS.—Juarez.—The City Council has approved the plans for municipal water-works system and banks of state of Chihuahua will be asked to bid on bond issue of $400,000 to cover cost. Bonds will be redeemable in a year and a half or city will redeem bonds in six months. Work on construction will begin in November.

ELECTRIC PLANT.—Tampico.—Luz Electrica de Tuxpam has been organized at Tuxpam, state of San Luis Potosi, for the purpose of installing and operating a new electric light and power plant. Among those interested in the enterprise are Luis Monroto Carsi, Antonio Alvarez, Manuel Perez, Santos Gonzalez and Felix Costilla, all of Tuxpam.

PORT WORKS.—Mazatlan. — Sinaloa.—The Mexican Government has given assurance that by the time the projected railroad from Guaymas is completed to Mazatlan the government will have completed the harbor works necessary to make the port one of the best on the Pacific coast. The estimated cost of the contemplated works is $7,000,000. Natividad Gonzalez, the engineer who has made the plans for the works, is now in the City of Mexico, and the Department of Communications is studying the plans and specifications.

ELECTRIC RAILWAY.—Puebla.—The Mexican Government has granted another extension of time for the construction of an electric railway between the City of Mexico and Puebla by the Mexico & Pueb'a Ry. Co. It is now required that the survey for the proposed road shall be completed by Jan. 17, 1906. The first ten kilometers must be completed by Jan. 17, 1907, and the whole road finished within ten years from that date. Benjamin Barrios, Zuleta 18, City of Mexico, is Atty. for the company.

ELECTRIC RAILWAY.—Morelia, Michoacan.—Governor Mercado and Secretary of State Valdez have signed the contract on behalf of the state of Michoacan for the construction of an electric railway between the towns of Zamora and Tangancicuaro. The terms of the contract require that the plans of the proposed road shall be submitted to the state authorities for approval within three months, and that the road shall be completed within three years. Among those interested in the project are Manuel Mario Legorreta and Felipe Verduzco Garcia, of Morelia.

STREET RAILWAYS.—Guadalajara. — La Electrica, S. A., Guadalajara, owning the principal street railway system in this city, and which holds a concession from the Mexican Government to convert the lines into electric transit and to cover many other streets, has purchased Kunhardt Street Railway system which operates over about 12 kilometers of streets of Guadalajara. Plans for the improvements and extensions that are to be made to the combined systems are now being made and will be submitted by the company to Governor Miguel Ahuamada for approval on Sept. 15. It is estimated that at least $2,000,000 will have to be expended to carry out the plans of the company. Included in this sum is $400,000 which the company will have to pay to the state government for its franchise. The construction of the power plant at the Juanacatlan water falls will be the first work undertaken. It is stated that the new electric transit system will consist of twelve independent circuits, ten of which will be in the city and the other two will connect Guadalajara and the suburban towns of San Pedro and Zapopan.

EXTENDING ELECTRIC LIGHT PLANT.

Office of the Board of Trustees of Public Affairs,
Reading, Ohio, September 4, 1905.

Sealed proposals will be received by the Board of Trustees of Public Affairs of Reading, Ohio, at the office of the Clerk of said board, until 6 o'clock p. m. of MONDAY, the 25th day of September, 1905, for the following work and machinery for the enlargement of the Electric Light Plant of the village, to wit:

1. The installation of new boilers and the removal of the old ones.

2. The installation of a new engine and the resetting of the old one, and the necessary steam pipe work for both engines.

3. The installation of electrical generators, switchboard, arc lamps, station wiring and station instruments.

Each proposal must be accompanied by a cash deposit, or a certified check, in a sum equal to ten (10) per cent. of the amount bid.

Checks to be made payable to the Board of Trustees of Public Affairs of Reading, Ohio. Said deposits to be made as a guarantee of good faith that the party making the proposal will within five days, if the contract is awarded to him or them, execute the same with approved security, after which the sum so deposited will be returned.

In the event of any bidder failing to execute the contract after the work has been awarded to him or them such bidder shall forfeit the same so deposited.

Bids will be entertained for the work as an entirety, and also separate proposals as per specifications for the different divisions enumerated above.

To insure a faithful completion of the work the contractor for any division thereof will be required to give bond in an amount equal to his bid, and the contractor for the entire work an amount equal to double the cost of same.

Copies of specifications, forms of the proposals and contracts will be furnished bidders on or about September 13, 1905, upon application to the Clerk of the Board or its Engineer, and the plans of the power house which is to receive the machinery can be seen at the office of the Superintendent of the Electric Light Plant, also at the office of the Engineer.

The Board of Trustees reserve the right to award the contract to such bidder who, in their opinion, offers the most suitable design of the machinery, lamps, etc., for the service required, and they further reserve the right to reject any and all bids.
